

## 150 OG

### Overview

The OG or “Old Gothic” profile, features a Colonial styled detailing that would suit any Kiwi home.

### Specifier Notes

Consider the 150mm profile for larger roof areas. This profile provides great access for cleaning. Where dense bush and overhanging foliage are considerations, this profile is recommended.

### Quick Reference Data

|        | Cross Section Area  | Downpipe size options | Material Availability | Bracket Types | Bracket Material                          |
|--------|---------------------|-----------------------|-----------------------|---------------|---|
| 150 OG | 9800mm <sup>2</sup> | 65mm                  | 0.60mm Copper         | Internal      | Aluminium                                 |
|        |                     | 80mm                  | 0.5mm ZR8             | External      | Copper*                                   |
