125MM · BOX

CUBE

The Cube 125 is the perfect marriage of form and function. It solves the common aesthetic struggle of sloping gutters by using its extended front to mask the necessary fall. If you need a high-capacity system that looks straight and sharp from the street — regardless of how much water it's moving — the Cube 125 is your go-to solution.

Ideally suited for modern builds, 1970–2000 respouts, and light commercial.

- High front face allows extra fall
- Large 8,656mm² capacity
- Tough marine-grade materials
- Internal & external bracket options
- Up to 20 year material warranty
- Matching downpipes & snow straps

SPECIFY YOUR CUBE
