175MM · BEVELLED SQUARE

TEXAN 175

The Texan profile delivers industrial size with residential finesse. When you need high volume performance and some serious strength but do not want that unsightly industrial appearance, Texan is the answer. This profile will handle just about anything when it comes to downpours.

Ideally suited for large residential, and medium to large commercial or industrial buildings.

- Bevelled square commercial profile
- External bracket with pan or face fix
- Available in all four finish ranges
- Up to 20 year material warranty
- Pre-painted steel, pre-painted aluminium or copper
- Matching downpipes & snow protection
